THIRD ANNUAL CONTEST

THIRD ANNUAL CONTEST

# Technical School Advertisement Competition

THE REVISED ADVERTISEMENTS AND PRIZE WINNERS ARE PUBLISHED BELOW

The firms represented on this page have taken such a deep interest in the work the Hamilton Technical and Art School has been doing that they have supplied the following copy to be set up and displayed by the apprentices of the Printing Department. The Printer and Publisher, Canada's highest authority on typog-

graphy, judged these advertisements and selected the prize winners, which are arranged below in order of merit. In commenting on these advertisements the judges said: "These advertisements are uniformly good and show the results of careful training. The contestants are to be congratulated on the work done."

## ANNUAL REPORT

For Year Ending December 31st, 1919

### To the Shareholders

Your Directors had to submit herewith their sixth annual report and statement of accounts for the fiscal year ending December 31st, 1919, showing net earnings of \$4,586,275.96 and a net profit of \$2,338,679.12 after deducting all Fixed Charges, including Depreciation, making ample provision for Government war taxes and providing reserves for all possible liabilities.

Your Directors are pleased to advise that both the freight and passenger-earnings of the system have been eminently satisfactory during the past year. Considering that this is the first year that the Company has operated its enlarged system under peace conditions, these results must be regarded as gratifying and on this account there is every justification for looking to the future with confidence.

In conformity with our announced policy of extending the field of operations of the Company abroad, thus co-ordinating Great Lakes, River and Ocean traffic, your Directors have inaugurated several new services between Canada and Europe and between New York, West Indies and South America, through the purchase of modern steamers. Some of these vessels have passenger accommodations, as is the belief of your Directors that the transportation business will assume large proportions. The results obtained have already justified the policy adopted. The Ocean Steamers, besides enjoying a substantial return, have contributed to the increased earning power of all branches of the Company's operations. You will note by the Balance Sheet that the increase in the value of the Company's assets for the last year amounts to \$5,419,347.73, that the increase in Fixed Assets included under the heading "Real Estate, Buildings, Docks and Wharves" amounts to \$796,872.57, and the increase in other Fixed Assets, etc., to \$398,343.27, the last two increases being attributable largely to extensions made to our shipbuilding plant at Three Rivers.

After careful consideration, your Directors have decided to place the common shares of the Company on a 7% per annum dividend basis, payable quarterly.

All the properties of the Company have been thoroughly maintained and are in good condition.

The whole respectfully submitted.

J. W. NORCROSS, President.

## STOCK MARKET

Unsettled

Purchase Advised Only On Good Breaks.

Low Earnings of Some Industrials.

(Supplied by J. B. Beatty & Co., 17 Main Street East, Members New York Stock Exchange.)

New York, Feb. 25.—Last Monday's poor stock statement and the fear of expectation of a further increase in redlist rates overshadowed all other factors yesterday, and toward the close selling of the industrials met with only half-hearted resistance. After the close it was noted that that money had been loaned on call at 8 per cent. Another unsettling factor was the publication of the earnings statements of some of New York Air Brake and Republic Steel which revealed a very limited earning power in 1919. We may expect further unsettlement and a purchase of stocks only on breaks and the purchase of industrials on the soundest of reports of further improvement in the price and medium priced rails.

General drift of market opinion bears out yesterday's close.

Loan crowd indicated large outstanding short account.

Unfavorable impression created by Republic Iron and Steel statement.

Barbaric elements based its opinion on reports of further increase in Bank of England bank discount rate.

Believed that Washington developments will also be important factors in stock market.

In some circles disappointment expressed over failure of President to sign railroad bill promptly.

Amateurs May be Governed by New Body

The Canadian Amateur Baseball Association Name of New Organization

Toronto, Feb. 25.—Plans are being rapidly completed to place amateur baseball in Canada on a solid footing and to bring the various associations now acting separately throughout the provinces under a central controlling body, to be known as the Canadian Amateur Baseball Association. Already this new body has been formed and a tentative board of directors elected with representation on it from every province in the Dominion except the three Maritime Provinces, which are represented by one official for all three. A great deal of work has been done quietly during the winter months, and already the officials of the provincial members report that they hope to have an association launched to carry on the work when the season opens. The Saskatchewan branch is the first to have a constitution having been drawn up and sent out to the baseball bodies of that province. A preliminary meeting and a convention to ratify it will be called in the near future.

Canoe Club Beat Cadets Five to Two

R. M. C. Practically Eliminated From Junior Race

Kinston, Feb. 24.—Toronto Canoe Club juniors blasted the hopes of the Royal Military College team here to-night when they beat them 5 to 2 and practically eliminated them from the O. H. A. Junior race. The victors lived up to advance notices in every respect, outchecked, outplayed the Cadets, and were successful on the night's play they were vastly the better team.

Royal Military College made their best showing in the opening period, when they tallied goal for goal with the fleet Red Ringed sextette, but in the second and third sessions they failed to locate the net.

"Bully" Burch at centre for T. C. was easily the best man on the ice. He tallied four of the goals, while White got the other.

The Amphib-Conacher defense easily stopped the Cadets attacking division, while the first period goal was unimpressive.

McDonald played in splendid form for the losers, and it was he who tallied both of their goals. Mundell did good work between the poles and stood up bravely against the fierce bombardment from the Canoe Club forward.

Local fans were greatly astonished when T. C. C. came out and the press reports they had been led to believe that the Red Ringed players were above the average in regard to weight, but they did not expect to see such a clean hockey and also possess an awful lot of ability. To their credit it must be said that they also possessed a clean hockey and refused to take advantage of their superiority in weight.
